Funded by the European Union

Horizon Europe — European Innovation Council (EIC) | Women TechEU

Project Name
ablute_ — Urinalysis device integrated into a toilet, for early detection of health conditions

Project Number (Grant Agreement)
101114524

Topic / Call
HORIZON-EIE-2022-SCALEUP-02-02 — Women TechEU
Call HORIZON-EIE-2022-SCALEUP-02 (Horizon Europe)

Beneficiary
ExoticTarget, Lda (ablute_)

Project Duration
Start 01-07-2023
End 31-12-2024

Grant Amount
€75,000

Project Description
ablute_ is a medical device integrated into a toilet that automatically analyses biomarkers in urine, enabling the early detection of several health conditions with immediate results.

Project Objective
To accelerate the development and validation of the ablute_ device, with access to mentoring, investors and the international network of the Women TechEU programme.

Funding
Project funded by the European Union through Horizon Europe, under the Women TechEU programme, managed by the European Innovation Council and SMEs Executive Agency (EISMEA).
